

Hey Body

Check ME out
in 30 Days!

Talk to your truSculpt provider today and plan out this Season towards a *Firmer, Smoother, More Confident You!*

Body vs Face

Women are more concerned about their stomach (69%) and thighs (40%) than they are with wrinkles (28%).

It's time to whip out your best LBD (Little Black Dress) that fits like a glove and makes you feel like a million bucks...except when you slip it on only to notice that not-so-adorable belly pouch or that bulge above and below your bra-line that you never knew you had.

Women's Concerns

3 out of 5 women are unhappy with their bodies.¹

Staying warm and stylish when temperatures dip below freezing takes strategic planning. Winter also means dressing for the holidays and parties.

Hey truSculpt® HELP!

Q, What is truSculpt®?

A. truSculpt is the latest nonsurgical, no downtime procedure that's clinically proven to target problem areas on the body that are resistant to diet and exercise, like cellulite.

Q, How does truSculpt work?

A. truSculpt is an energy-based procedure that delivers controlled, yet comfortable, doses of therapeutic heat to the target zone, firming and smoothing problem areas over time.

Q, Who is right for truSculpt?

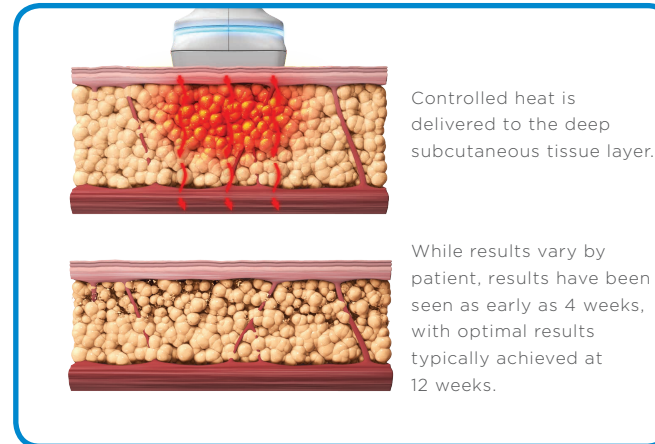

A. truSculpt is the ideal alternative for both women and men that live a healthy lifestyle but have problem areas that neither a NO-carb, NO-sugar diet nor any amount of crunches or 5K runs can resolve.

Post One Treatment

Q, How many treatments are required?

A. 2 to 4 treatment sessions spaced 4 to 6 weeks apart is recommended to achieve optimal results.

Controlled heat is delivered to the deep subcutaneous tissue layer.

While results vary by patient, results have been seen as early as 4 weeks, with optimal results typically achieved at 12 weeks.

Post Two Treatments

Winter's Top Concerns

- ✓ Muffin-tops
- ✓ Love handles
- ✓ Saddlebags
- ✓ Bra-line bulge

Q, Is the treatment painful?

A. While pain varies from patient-to-patient, most truSculpt patients find the procedure comfortable and therapeutic.

Q, Can I return to daily activities following the treatment?

A. Yes. truSculpt is a no downtime procedure giving you the freedom to return to your daily activities immediately post treatment.

Challenge that Little Black Dress this season with a Firmer, Smoother, More Confident You!
